

AirCheckup™ Air Quality Control Card

AirCheckup™ provides visual validation if indoor air quality meets standards ISO 14644-1 and ANSI/ISA-71.04 for air cleanliness and cleanliness.

Kit Contents: 1 sampler, instructions, post paid sampler return mailer.

OVERVIEW

1

Stick the AirCertify™ sampler to a wall, pillar or rack to start 24/7 air quality monitoring. Visually check indicators from time to time.

2

In case of any discoloration of the sampler indicators send the sampler for laboratory report corresponding to standards ISO 14644-1 and ANSI/ISA-71.04.

3

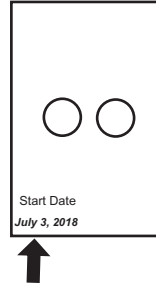

Any contamination issues highlighted by the report can be remedied before operations and occupant health are affected.

Use of this product subject to TERMS at www.aircheckup.com © Technology Care LLC - All rights reserved - Swiss Made - Patented

Instructions

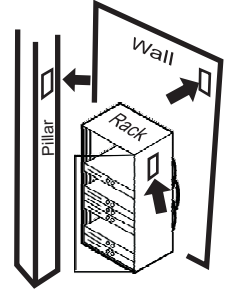

1

Write the "Start Date" on the sampler.

2

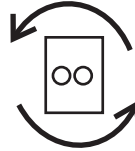

Stick the sampler to a vertical surface where it will not be disturbed or touched such as a wall, pillar or rack.

Sending Sampler for a Laboratory Report

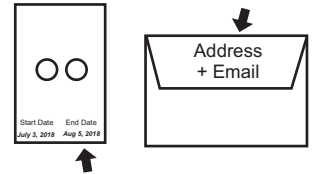

1

Slowly rotate sampler to remove. Do not pull since this could damage painted surfaces. Rub to remove remaining adhesive.

2

Write the "End Date" on the sampler and fill in the information on the back of the return mailer

3

Seal sampler in sampler bag and send to our laboratory with the postage-paid mailer. When we receive your sampler we will send you a quote for laboratory processing. For more information please see www.aircheckup.com
